Electoral Cheating

1. Imagine that it's just after a local election and one of your acquaintances, who is a registered [Democrat/Republican], admits to you they voted twice in the election. If you reported

your acquaintance to an election official, their votes would not be counted, they would have to pay a small fine, and they would not know you reported them.

How likely is it that you would report your acquaintance to an election official?

- 1 Very likely
- 2 Likely
- 3 Slightly likely
- 4 Neither likely nor unlikely
- 5 Slightly unlikely
- 6 Unlikely
- 7 Very unlikely

2. Now, imagine a new scenario.

It's the day after the 2020 election. A reliable [Democratic/Republican] county in your state is under scrutiny for allowing people to vote past your state's mandated poll closing time. Due to voter demand, polling places in this [Democratic/Republican] county stayed open until midnight.

State law requires that polling places close at 8pm.

Should votes cast after 8pm be counted?

- 1 Definitely should be counted
- 2 Should be counted
- 3 Probably should be counted
- 4 Uncertain
- 5 Probably should be NOT counted
- 6 Should be NOT counted
- 7 Definitely should be NOT counted

3. Now, imagine a new scenario.

Imagine you're employed to work at your local polling place on election day 2020. You are required to check voters' state-issued ID to ensure they're eligible to vote. An acquaintance who you know is a registered [Democrat/Republican], comes to vote and presents their registration card but is unable to present an appropriate form of ID. Under state law, your acquaintance would not be allowed to cast a ballot without appropriate ID.

In this situation, how likely are you to allow your acquaintance to vote?

- 1 Very likely
- 2 Likely
- 3 Slightly likely
- 4 Neither likely nor unlikely
- 5 Slightly unlikely
- 6 Unlikely
- 7 Very unlikely

4. Now, imagine a new scenario.

Imagine that it's the day before the 2020 election. You intend to vote, but realize that you have lost your voter ID, and will not be able to vote without it. You mention this to your friend, who is a registered independent, and your friend offers to let you use his voter ID. In your state, only a voter ID is required to vote and you will not need to present any photo identification to vote.

How likely is it that you would go vote by using your friend's voter ID?

- 1 Very likely

- 2 Likely
- 3 Slightly likely
- 4 Neither likely nor unlikely
- 5 Slightly unlikely
- 6 Unlikely
- 7 Very unlikely
